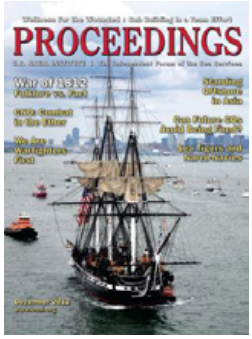
CNO's Logbook

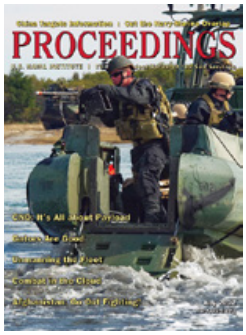
Adm. Greenert: Wireless Cyberwar, The EM Spectrum, And The Changing Navy
Publication: AOL Defense
Date: April 2013
Description: Adm. Greenert talks about warfare in the EM-Cyber domains, the Navy's increased attention to these areas internally and externally, and how mastering these environments provides a warfighting edge.



Imminent Domain
Publication: Proceedings Magazine
Date: December 2012
Description: Adm. Greenert discusses the increasing use of wireless EM emitting technology in our everyday lives as well as in warfighting capabilities. Mastering the EM-cyber environment plays a key role in readiness and military superiority.

Sea Change: The Navy pivots to Asia
Publication: Foreign Policy
Date: November 2012
Description: Adm. Greenert talks about the importance of the Asia-Pacific rebalance, how it will be accomplished, maintaining global naval support, and how the Navy will adapt to the challenges of operating within the modern age maritime environment.

CNO's Diversity Vision
Publication: Navy Personnel Command Website
Date: October 2012
Description: Adm. Greenert outlines how a diverse force contributes to readiness, makes our force stronger through the recruitment of a multitude of talent and how institutionalizing diversity will continue to improve the Navy organization.

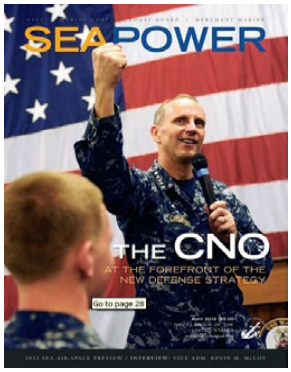


Payloads over Platforms: Charting a New Course
Publication: Proceedings Magazine
Date: July 2012
Description: Adm. Greenert discusses the Navy's approach to maintaining current readiness in the unique demands of today's missions through changing modular weapons, sensors, and unmanned vehicle "payloads" which naval ships and aircraft carry or employ.

KT McFarland Interviews CNO
Channel: Fox (8 Minutes)
Date: May 2012
Description: Adm. Greenert discusses the Navy's commitment to being ready, the importance of forward deployed units, the global influence of hospital ships, defending against piracy and the Navy's responsibilities in the Asia Pacific during an interview with KT McFarland aboard USS Wasp.

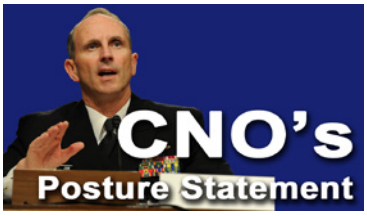
Building on a 200-Year Legacy
Publication: Naval History Magazine
Date: June 2012
Description: Adm. Greenert discusses how the lessons learned from the War of 1812 remain the basis for U.S. Navy operations in the 21st Century.

Sailing Into the 21st Century: Operating Forward, Strengthening Partnerships
Publication: Joint Force Quarterly
Date: April 2012
Description: Adm. Greenert discusses how he applies his key tenets toward the Navy's overall maritime strategy and breaks down the current status of the fleet, how history shaped the new strategy and challenges and opportunities he foresees for the Navy going into the future.



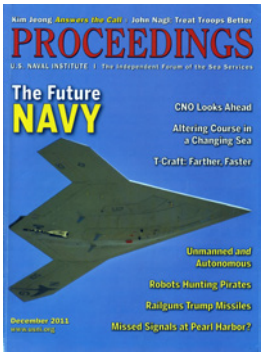
The CNO: At the Forefront of the New Defense Strategy
Publication: Seapower Magazine
Date: April 2012
Description: Adm. Greenert discusses the new defense strategy budget, the future fleet, the new deputy CNO and flag officer reductions.

CNO's Navigation Plan
Publication: CNO's Leadership Website
Date: April 2012
Description: Adm. Greenert's Navigation Plan draws on his Sailing Directions and provides further amplifying information for commands to help carry out the new defense strategic guidance.



CNO's Posture Statement FY 2013
Publication: Congressional Testimony
Date: March 2012
Description: Adm. Greenert weighs-in on the Department of the Navy's official posture statement before the Congress on the fiscal year 2013 DoD budget submission.

Air-Sea Battle: Promoting Stability in an Era of Uncertainty
Publication: The American Interest
Date: February 20, 2012
Description: Adm. Greenert and Gen. Norton Schwartz discuss how the new defense strategy incorporates Air Force and Navy personnel and resources to deter and combat emerging threats.



Navy 2025: Forward Warfighters
Publication: Proceedings Magazine
Date: December 2011
Description: Adm. Greenert discusses the Navy and its evolution over the next 10 to 15 years with a focus on partnerships, places, power and payloads.

CNO's Sailing Directions
Publication: CNO's Leadership Website
Date: September 2011
Description: Adm. Greenert's Sailing Directions lay out a course for the fleet describing the Navy's mission, his vision for the Navy's future, his three tenets and guiding principles for executing the maritime strategy.
