

# ***Navy Establishes Intranet Program Office***

The Department of the Navy has established the Navy-Marine Corps Intranet (NMCI) Program Office. The program office has been created to be the centralized point of authority and accountability for the NMCI program.

NMCI is a critical part of transforming the Navy/Marine Corps team to meet this nation's future security. It is a complex undertaking, and a dramatic departure from the traditional ways of doing business within the DoD.

Senior level review of the program office will be accomplished by an NMCI senior executive council. Council composition is expected to include Department of the Navy representatives from operations, finance, training and testing, as well as industry leaders.

For more information, go to the Web site for the Program Executive Office for Information Technology at [www.peo-it.navy.mil](http://www.peo-it.navy.mil)
