

# ***Task Force Excel announces new rating pilots***

The Navy's Revolution in Training is haze gray and underway, bringing you the tools and opportunities to excel. The fleet, working hand in hand with Task Force for Excellence through Commitment to Education and Learning (EXCEL) is developing professional continuums for 17 ratings, with another 17 on the launching pad.

These professional development efforts will integrate relevant industry-related credentials and appropriate college-level credits, giving Sailors the best possible opportunities for success. Already, several pilots in the information technology and damage control fields, as well as those in the mess management specialist rating are giving Sailors industry certifications that are making them competitive.

The continuums, which act as roadmaps for Sailors careers by identifying all training and education opportunities, are part of the revolution's Sailor Continuum. The Sailor Continuum incorporates five areas of concentration — professional development; personal development; qualifications and certifications; leadership; and performance — to create an environment of holistic Sailor development.

Rating Continuums Under Development:

QM, SM, BM, GSE, GSM, MM, EN, EM, IC, DC, HT, MR, IT, MS, SH, STG, AG

Rating Continuums in Their Initial Phases:

AW, AS, AZ, AD, AM, ET(SUB), STS, CTT, CTA, CTI, CTM, CTO, CTR, MN, CM, CE
