

Navy Releases "Perform To Serve" Procedures To Fleet

Perform to Serve (PTS) is a centralized reservation system that will encourage some reenlisting Sailors to convert from crowded ratings to critically-undermanned ratings offering better promotion opportunities.

Initially, only first-term Sailors in CREO Group 3 ratings with an end of active obligated service (EAOS) in April 2003 or beyond will be required to apply for reenlistment under PTS. Eventually, the program will apply to all first-termers.

The Navy Personnel Command (NPC) will begin processing requests 12 months from the Sailor's EAOS/ Projected Rotation Date. However, NPC will process applications for special programs the month following their submission. Sailors wanting a rating conversion should include three alternatives from CREO groups 1 or 2 (undermanned rates and rates manned appropriately).

Commands can submit PTS applications to NPC via e-mail or naval message. Commands will receive monthly PTS results during the second week of each month.
