Navy Helping Sailors Save Money, Environment

Sailors and Department of the Navy employees can save money by participating in the Transportation Incentive Program (TIP).

TIP offers active-duty Sailors, Marines and DoN civilian employees vouchers to purchase monthly public transportation passes. The vouchers can also be used toward other transportation services, such as vanpools or commuter trains.

Different variations of TIP are available in all 50 states, Guam, Puerto Rico and the U.S. Virgin Islands.

Participants must use TIP a minimum of 13 days a month for travel to work to be eligible.

To sign up for this program, contact a local base representative or go online at www.fmo.navy.mil/services/tip/tip.htm to complete and submit a TIP application form. The enrollment process takes about one month.
