

## Navy Readies New Performance Evaluation Software

The Navy will release a new version of NAVFIT98A software Aug. 1, changing the way physical fitness assessment (PFA) results and individual augmentee (IA) service are documented in a fitness report or evaluation.

NAVFIT98A Version 28 supports new performance report policy changes and fixes known security and printing problems, as well as other technical issues associated with older versions of the software.

Because of these changes, all forms will have new version numbers. Electronic versions can be found at <http://www.npc.navy.mil/careerinfo/performanceevaluation/softwareforms>.

Commands that still have an older version installed but that need to submit performance reports with ending dates of Aug. 1 or later can submit performance reports generated by older software versions until Navy/Marine Corps Intranet (NMCI) updates are complete.

The E7-E9 chief evaluation has been modified to include the new policy guidance. Evaluation form NAVPERS 1616/27 8-10 can be found at the above link beginning Aug. 1. This Web site also answers frequently asked questions concerning Version 28 deployment and provides a reference guide on using the application.

For more information on NAVFIT98A Version 28, read NAVADMIN 233/10. For technical assistance with NAVFIT98A software, call NPC Customer Service Center at 1-866-U-ASK-NPC (1-866-827-5672). For any NMCI software deployment issues, contact the NMCI Helpdesk at (866) 843-6624.
