

***Greetings Shipmates!***

*A few weeks ago, I mentioned that I had a new lady in my life; well I must admit that I may have a small problem with life/work balance. While my son and daughter in-law were in town I promised them that I would stay quiet and do what ever the family wanted over the Memorial Day weekend. Not that I would ever want to take control or attempt to influence any family decisions@.*

*It is hard for me to admit, but I had a great time hanging out with my granddaughter, and family, that may be because Maya and I required the same things, plenty of food, frequent bathroom visits and sleep. Words can't really describe the feeling when you are able to hold your grandchild and know that the next generation is looking at you and smiling knowing that they have you wrapped around their little fingers. We did a lot of driving over the weekend, but practiced ORM. Maya met her great grandmother and extend family who live on the east coast and that was a blessing in itself. The added bonus was the safe return of my nephew who just began his journey back home from recent deployment in Afghanistan with the USMC. Not all of the Marine and Navy families of this unit were able to celebrate together because some of those heroes had paid the ultimate sacrifice for our country. It was a great weekend because it allowed me to slow down just a little and spend some time with the great people in my life that support me through thick and thin.*

*As we move into the month of June, I would like to remind you of a few things that we need you to keep on your radar. DTS self registration and AT orders submission in NROWS are lagging, so if you or your Shipmates have not self-registered make it happen before 30 June 2010. As a force we have ~ 25k SELRES without approved AT orders, and only 68% of the 25K that are currently directed to use DTS have self registered to date, so please ensure that this is communicated to those in your unit or command.*

*Please allow me to close out this edition by reminding you to take care of your life/work balance and to say Thank-You for all the support and all the things you do day in and out to support our Navy Reserve mission.*

**Change to Physical Fitness Assessment Documentation on Fitness Reports:**

Review NAVADMIN 193/10 for latest updated information. Verify your PRIMS data!

**N33 Force Travel Best Practices:** Verify you are self registered BEFORE submitting NROWS orders into DTS.

Main problems with Self Registration...

1. Self Register with "R"!!! SSN must include an "R" at the end (SSN + R) ex: 123456789R 10 digit social.  
The R is more important than appears. NROWS imports into DTS will only match up with people who have an R in their SSN, otherwise the import gets lost in cyber land.
2. Register must be done under the correct NOSC SELRES Organization which ends with an "R" ex: DN7261006R. The org has to end with an "R" otherwise they will default to active duty and any xml (travel order sent over to DTS from NROWS) will reject for these travelers.
3. SELRES must Select Navy RESERVE as your branch of service, otherwise when the NROWS import will reject.
4. Navy Reservists need to finish their self registration submissions! Many SELRES have started creating their profile and saved it so they can come back and add info such as banking data.
5. Many FTS are granting their assigned SELRES extra access levels in DTS. They do not need extra access beyond level 0, as a traveler only. The FTS manage SELRES DTS I/E. Extra access for untrained personnel is a mistake and illegal! Without the proper training and forms filed with N33 (DD FORM 577) they are not authorized to have access to review travel arrangements!  
We will limit the access of FTS who grant additional access to their SELRES.

Top 3 reasons why imports are rejected and members are not allowed to travel:

1. Error 71 Invalid duty address.  
Verify the address is correct. Use the UIC and let it populate, default will be the local PSD please use that not the actual location where you will be physically reporting to. You can add that on the last line where it reads "For duty with"
2. Error 45 Member deactivated or inactive in DTS.  
Self register, submit, and verify profile is Navy Reserve

3. Error 30 invalid Schema

The only way to prevent this error is for the member and the OWA to closely review NROWS orders for any discrepancies.

**Around the Force**

**Navy Reservists Support CENTCOM Operations on Detachment.** Providing *unsurpassed individual and command readiness*, a detachment of 18 Reservists from VR-57 is forward deployed to the CENTCOM Area of Responsibility from their home base in San Diego. The Det of maintenance, operations specialists and aircrew provide the *“Ready Now. Anytime, Anywhere” capabilities of the C-40A fulfilling Navy requirements* throughout the region. Receiving assigned tasking directly from FIFTH Fleet, the Reservists have recently fulfilled numerous Fleet essential airlift requirements, including intra-theater lifts of Mobile Security Squadrons and NSW units, and short-notice logistics flights supporting VP-1 and CVW-7.

**Helicopter Sea Combat Squadron EIGHT FOUR (HSC-84) Total Force Effort ISO OCO.** In the past week, the Total Force Detachment composed of 36 Active Component, FTS and SELRES Sailors completed 35.8 flight hours during combat sorties in Iraq, directly supporting SOCCENT and CJSOAC mission requirements.

**Navy Expeditionary Logistics Support Group (NAVELSG) Sailors Support Exercise NATIVE FURY.** Providing a wide range of transportation functions and expeditionary logistics capabilities to our Navy and Marine Corps team, *44 ready and accessible RC Sailors recently deployed to Bahrain in support of the periodic exercise.* The Sailors loaded rolling stock and static containers and worked with the 1<sup>st</sup> Marine Expeditionary Force (I MEF) offloading Improved Navy Lighterage System (INLS) interchangeable modular components.
