

**JAMRS**

# **State of the Recruiting Market**

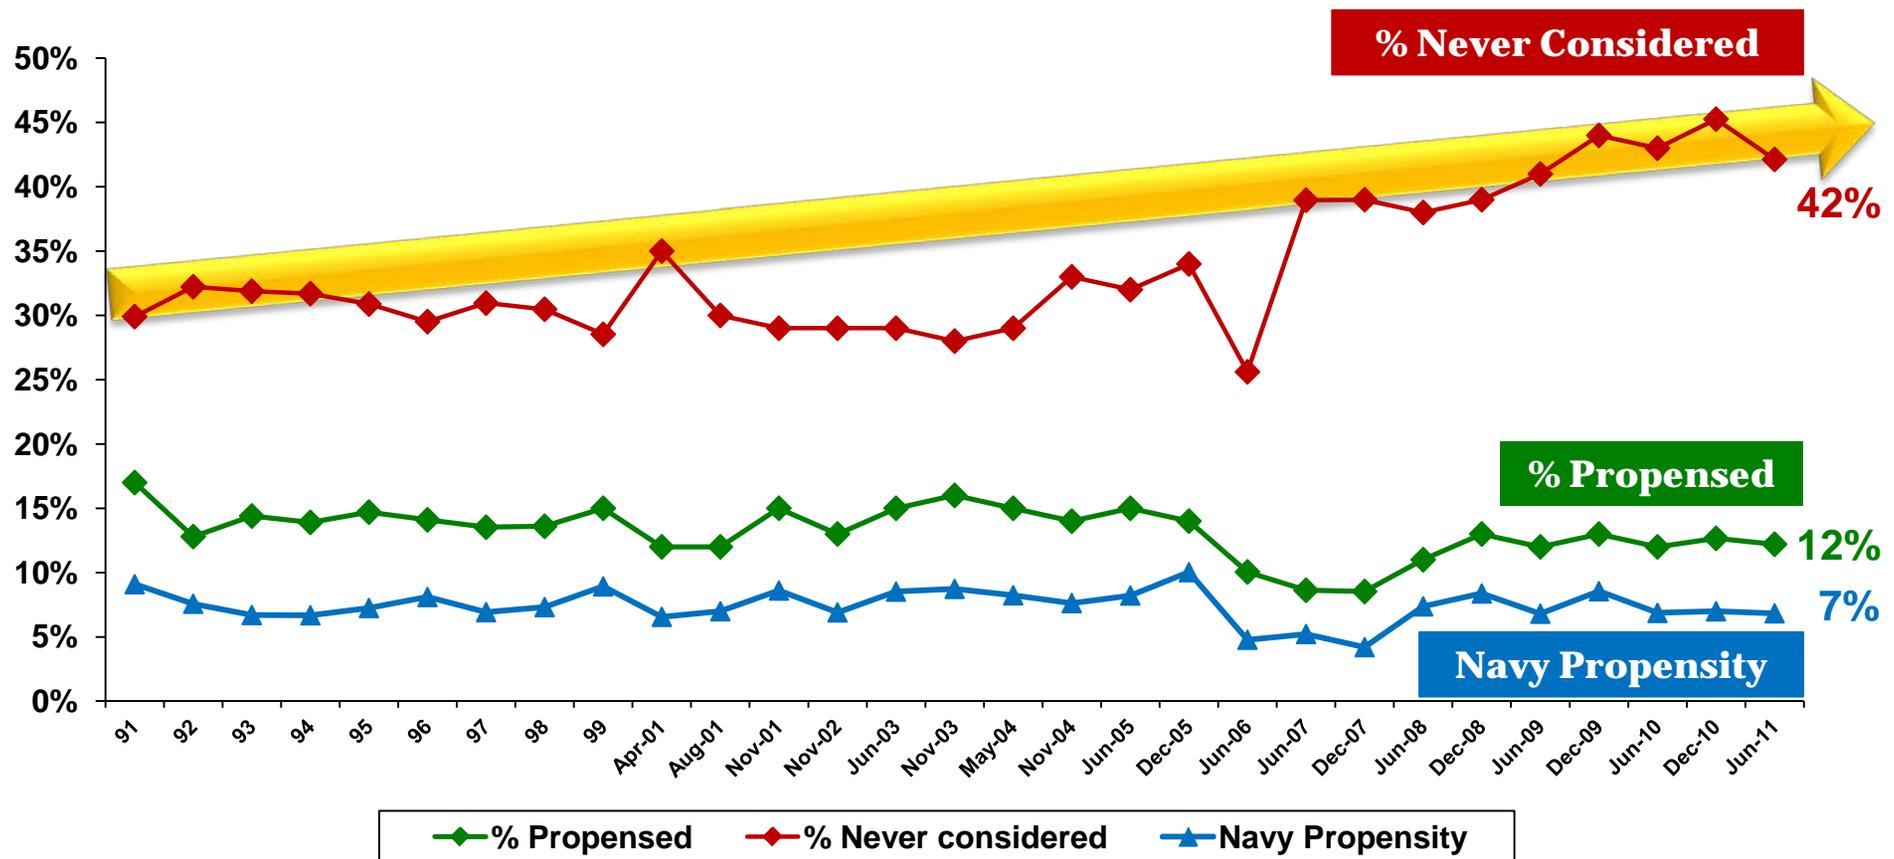

**November 2011**

- **Recruiting has been successful, but we must adapt our approach to continue to keep the All Volunteer Force viable in the near future.**
  - Underlying problems masked by economic and employment instability.
  - Military service is becoming an “unconsidered” option to a large and growing proportion of youth.
  - We are facing an increasingly toxic and polarized recruiting environment, and have yet to clearly define strategies to effectively address all challenges.
  
- **We are poised to face significant recruiting challenges on 3 different and unique fronts:**
  - Pre-prospect: creating an environment receptive to future recruiting
  - Prospect: persuading those with appropriate characteristics and skillsets
  - National: maintaining a positive, influential, and attractive organizational image
  
- **Correcting these problems will require the willingness to try new approaches as well as collaboration between the Services, Components, and Department.**

# Intention and Considerations for Military Service

- Though propensity has been stable, the proportion of youth who have *never* considered joining the Military has **increased from 30% in 1991 to 42% in June 2011.**

Note: Youth ages 16–21

Source: Department of Defense Youth Polls

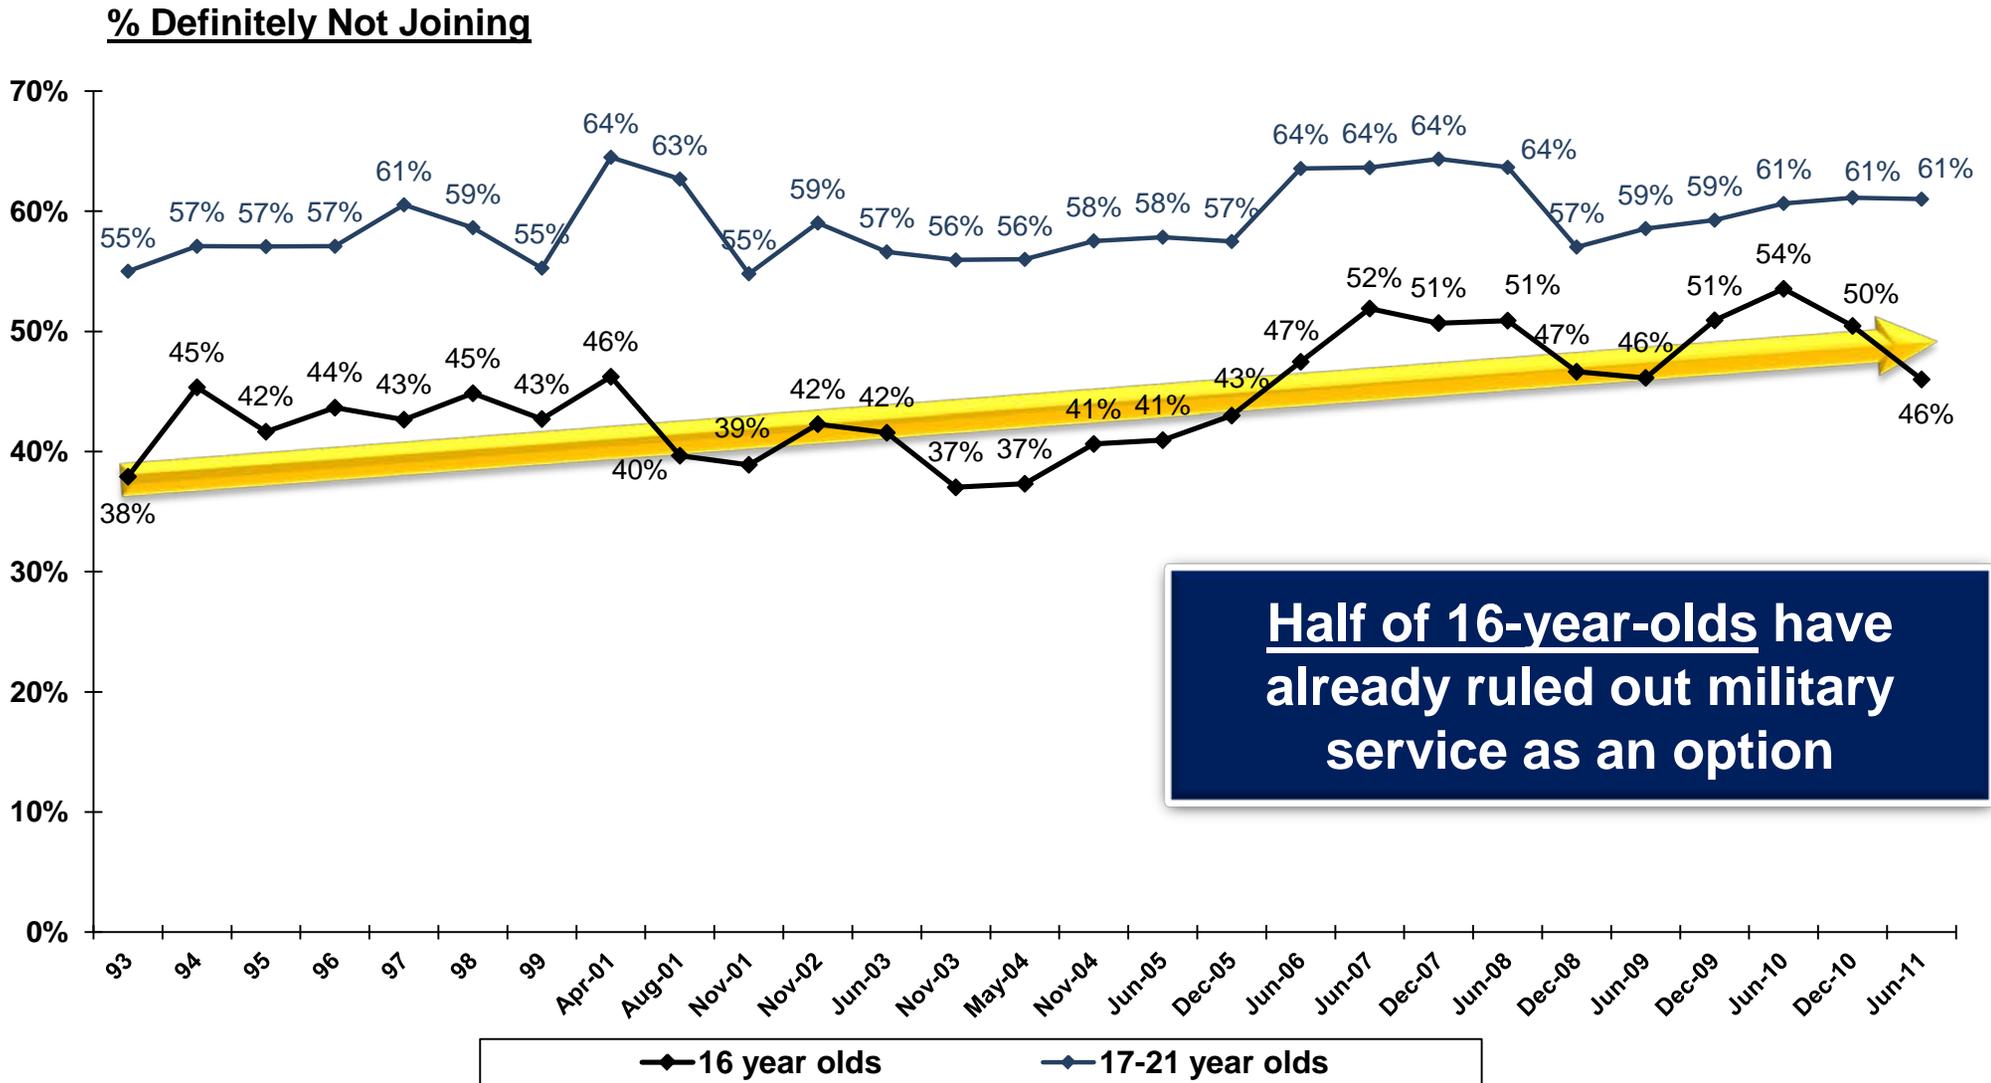

↑↓ = Significant change from previous poll

Questions YATS- Q503: Now, I'd like to ask you how likely it is that you will be serving in the Military in the next few years?; Youth Polls- FPP9: In the next few years, how likely is it that you will be serving in the Military? FPP15: Before taking this survey, how much consideration had you given to the possibility of joining the Military?

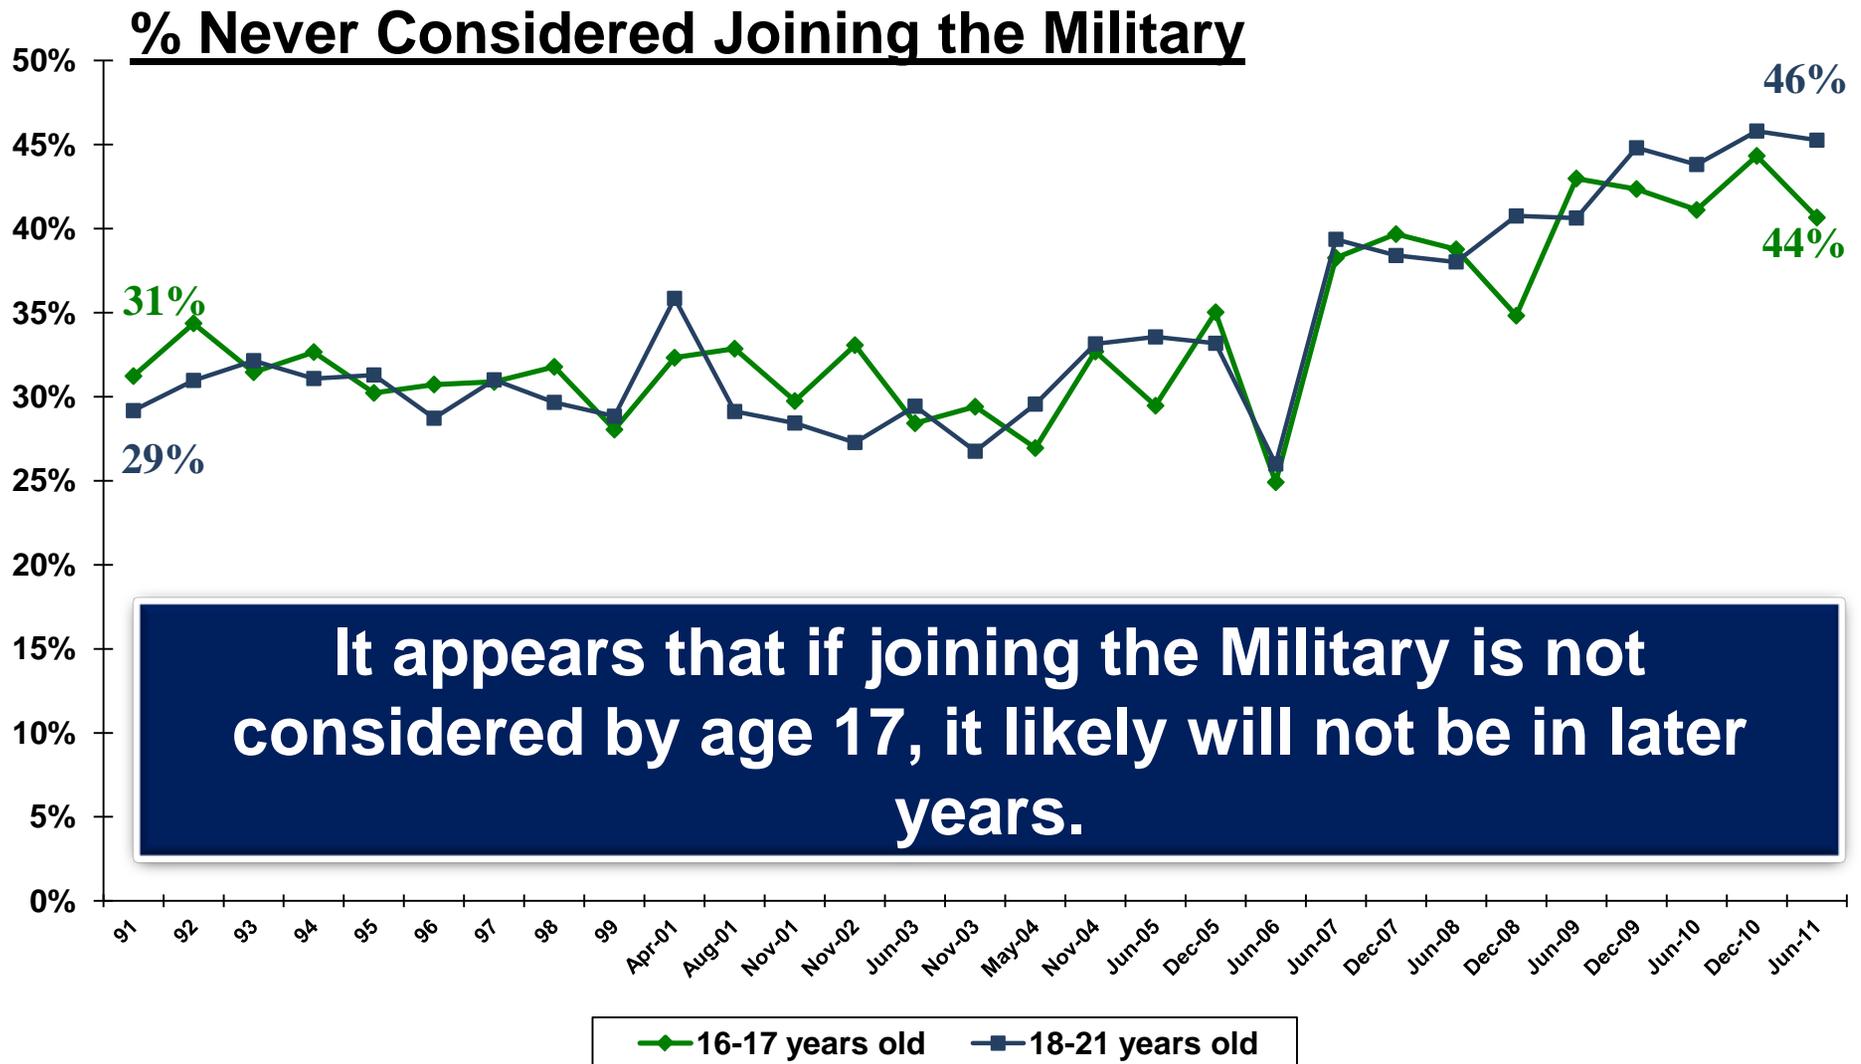

# Propensity: Definitely Not Joining

## By Age Cohort

**Half of 16-year-olds have already ruled out military service as an option**

# Prior Consideration of Military Service

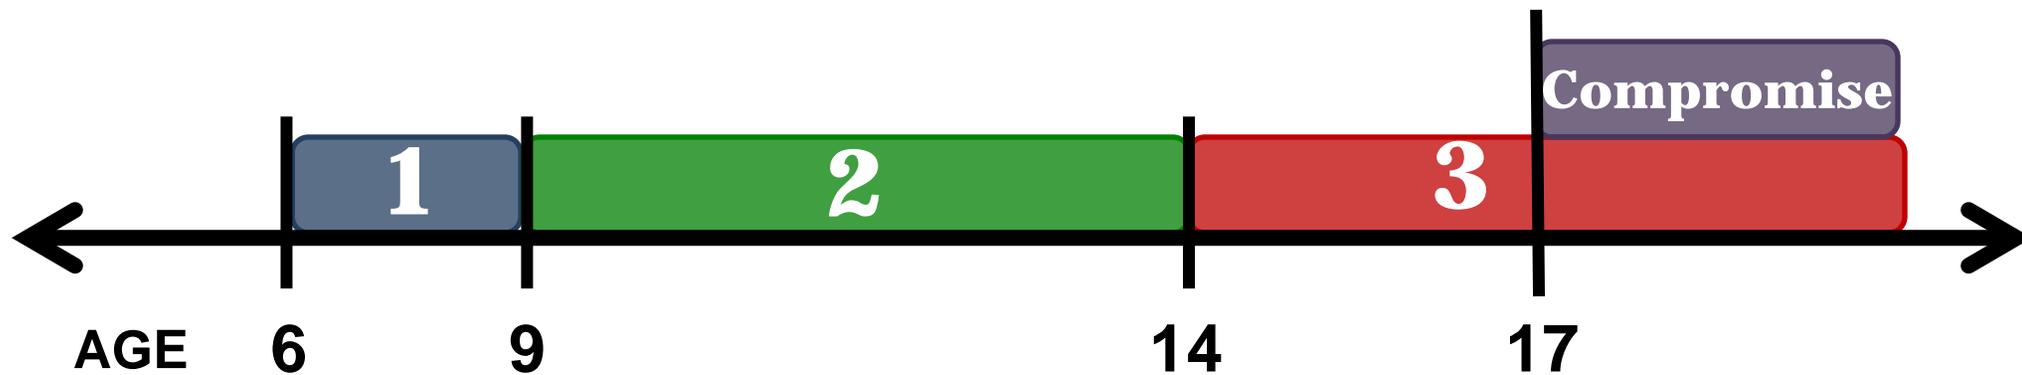

Source: Department of Defense YATS and Youth Polls

Question FPP15: Before taking this survey, how much consideration had you given to the possibility of joining the Military?

# The Pre-Prospect Problem

# Selection, Congruence and Compromise

## ELIMINATION & SELECTION

*Child excludes options through stages as they develop and advance in age:*

**1:** Gender-Type Preferences; Ages 6–8

**2:** Social Worth Preferences; Ages 9–13

*Child eliminates options*

## **3: CONGRUENCE;** Ages 14+

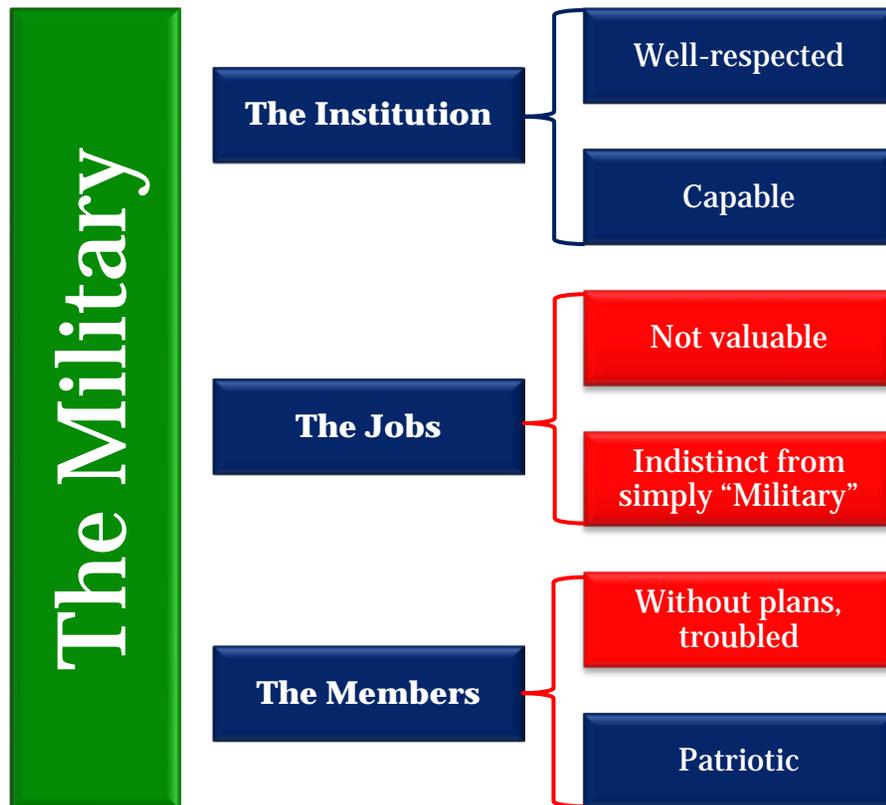

- Teens rank and select from options remaining after stage 1 and 2

## **COMPROMISE;** Ages 17+

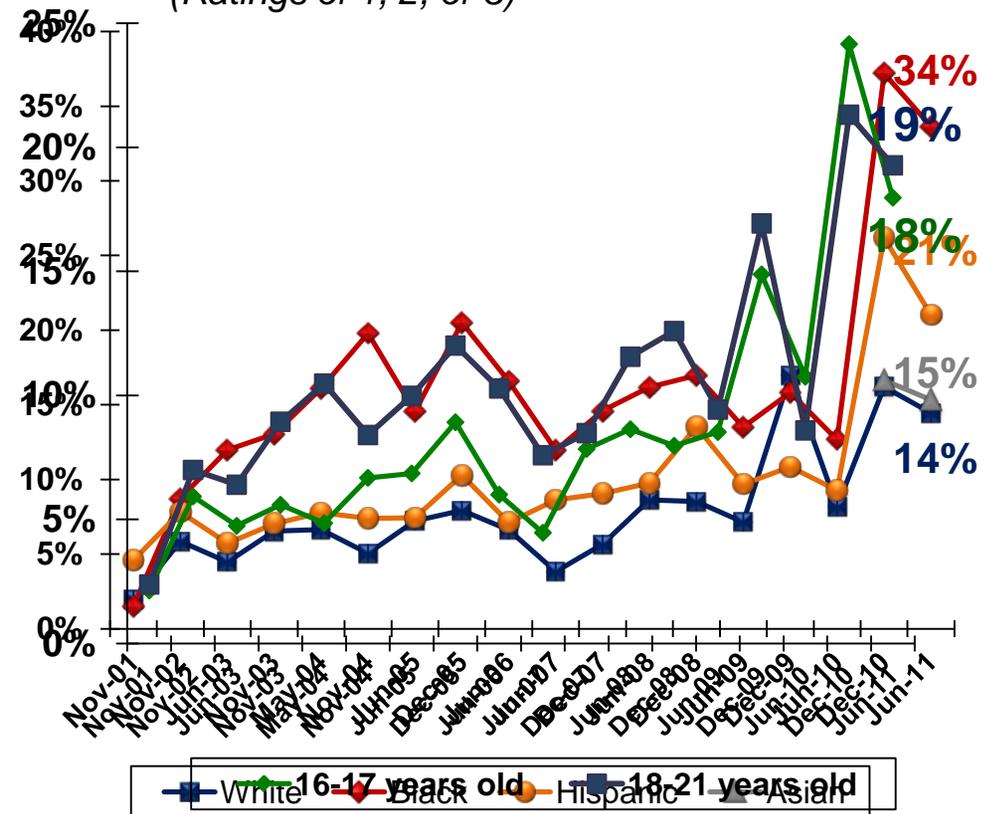

- Usually after high school
- Facing reality so balance preference with accessibility
- Perceptions of opportunity
- Barriers to jobs & training

# What is a Job's "Value"?

- Youth make a strong distinction between the Military as an institution versus jobs within the Military.
- Regardless of this distinction, favorability for the Military has declined meaningfully over last decade.

**% Youth Unfavorable Rating of the Military**  
(Ratings of 1, 2, or 3)

Note: Youth ages 16–21

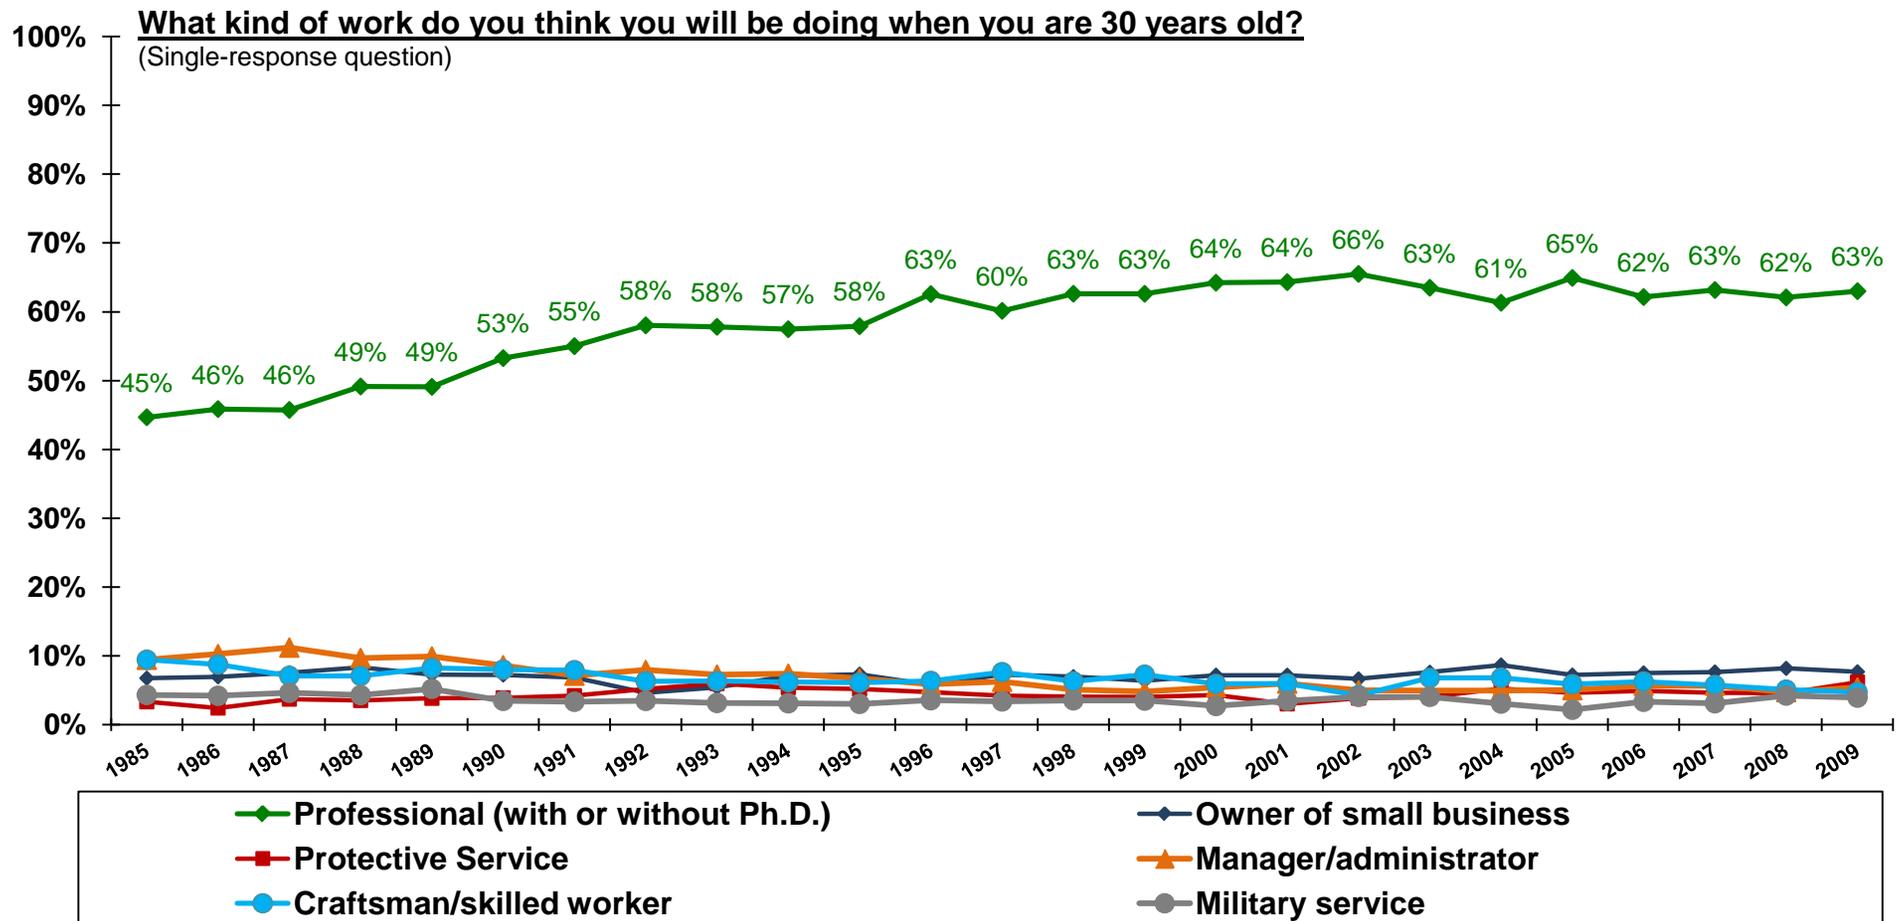

Source: In-Depth Study Focus Groups, DoD Youth Polls

Question FAV1: How favorable is your opinion of the Military? Respondents were given a 10-point scale where 1 means Very Unfavorable and 10 means Very Favorable.

# Future Plans of 12<sup>th</sup> Graders

- The majority of HS seniors believe they will be performing **professional work** by the time they reach age 30.
- We are seeing a clear increase in affinity for **“White Collar” jobs** and no such increase for other types of jobs.

Note: Not all professions are shown. Total may not sum up to 100.

Source: Monitoring the Future (1985-2009), 12<sup>th</sup> Grader Survey

# Losing an Understanding

## Young adults have little knowledge of the Military

Only **30%** of respondents can name ALL five Services

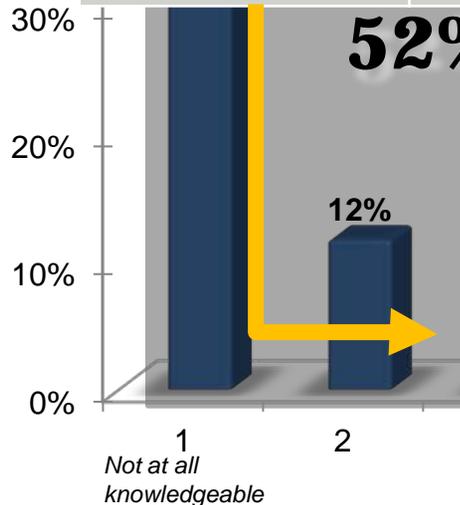

**42%** of respondents DO NOT KNOW the difference between an Officer and an enlisted person

Name all 5 Services	Apr–Jun 2010-2011
White	39%
Black	10%
Hispanic	18%

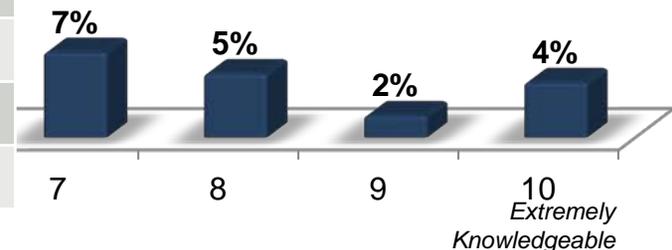

knowledge of

Difference between Officer and enlisted person	Apr–Jun 2010-2011
White	42%
Black	10%
Hispanic	18%

**“...I’m glad that they are fighting for our freedom and all that but it's just not my thing. I also lack any information that might be useful in future choices about the military.”**

Name all 4 DoD Services	Apr–Jun 2010-2011
Total	53%
White	65%
Black	27%
Hispanic	38%

Note: Estimates are for youth ages 17 to 35.

Sources: DoD Ad Tracking Reserve Study Wave 31 (Apr–Jun 2011)

Questions: q1bb “What other branches of Service come to mind? Please list all Services that you can think of”; q1dd5 “Before taking this survey, were you aware that there is a difference between an Officer and an enlisted person in the Military?”; q1cc1 “Let’s talk about your knowledge of the U.S. Military. Please use a scale from 1 to 10 where 1 means NOT AT ALL KNOWLEDGEABLE and 10 means EXTREMELY KNOWLEDGEABLE. Please tell me how knowledgeable you are about: Active Duty”

# Knowledge of Service Opportunities

**47%** of people ages 17 to 35 were not aware of the opportunity to serve full-time OR part-time in the Military.

NOT Aware Part-time versus Full-time?	Apr–Jun 2010-2011
White	40%
Black	57%
Hispanic	61%

**46%** of **PHYSICIANS** did not know there was an opportunity to serve either full-time OR part-time in the Military.

“Honestly, I don’t know enough about the medical corp.”

**46%** of non-prior service **MEDICAL RESIDENTS** did not know there was an opportunity to serve either full-time OR part-time in the Military.

Note: Estimates are for youth ages 17 to 35.

Sources: DoD Ad Tracking Reserve Study Wave 31 (Apr–Jun 2011)

Questions 1cc2 (Reserves) and 1cc3 (National Guard): “Let’s talk about your knowledge of the U.S. Military.” (1 – Not at all Knowledgeable, 10 – Extremely Knowledgeable); 1dd6: “Before taking this survey, were you aware that there is the opportunity to serve either full-time OR part-time in the Military?”; 1dd5: “Before taking this survey, were you aware that there is a difference between an Officer and an enlisted person in the Military?”

# Social Worth: Parents

- Parents, particularly among minorities, remain a **large deterrent for joining the Military**, even if the youth were to join as an officer.

How much would you feel each of the following emotions if your child decided to join the Military as an officer?

		Fear	Anger	Disgust
<b>Fathers</b>	<b>White</b>	<b>59%</b>	<b>12%</b>	<b>7%</b>
	<b>Black</b>	68%	25%	<b>30%</b>
	<b>Asian</b>	64%	10%	16%
	<b>Hispanic</b>	<b>72%</b>	<b>25%</b>	16%

<b>Mothers</b>	<b>White</b>	<b>77%</b>	<b>22%</b>	<b>15%</b>
	<b>Black</b>	<b>85%</b>	<b>40%</b>	<b>34%</b>
	<b>Asian</b>	63%	32%	22%
	<b>Hispanic</b>	<b>90%</b>	<b>44%</b>	<b>33%</b>

 = significantly different from White Parents

“They would think: ‘You don’t need to do that,’ ‘You’re wasting everything I did for you.’”

“They would be angry because there are so many things that can happen: held hostage, shot in head, etc.”

“They wouldn’t be happy that I made that decision; they would think I was limiting options and opportunities.”

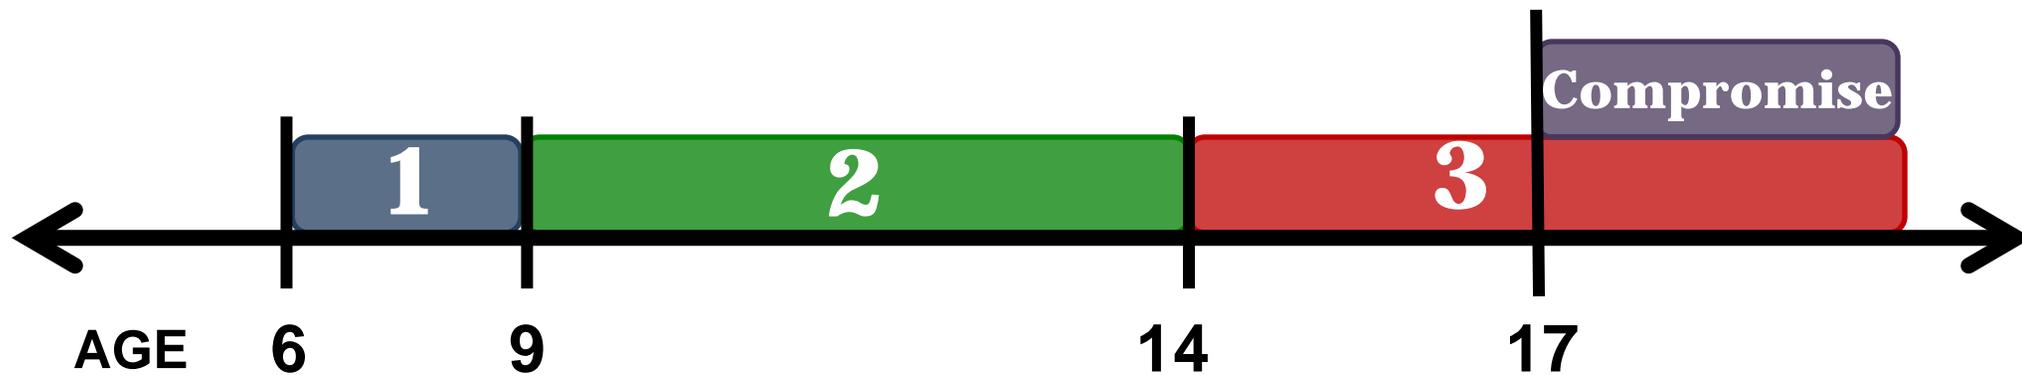

“There was a plan (college, finish college, get job), so not following the plan would result in anger.”

# Losing an Understanding: In Their Own Words

# The Prospect Problem

# Selection, Congruence and Compromise

## ELIMINATION & SELECTION

*Child excludes options through stages as they develop and advance in age:*

**1:** Gender-Type Preferences; Ages 6–8

**2:** Social Worth Preferences; Ages 9–13

*Child eliminates options*

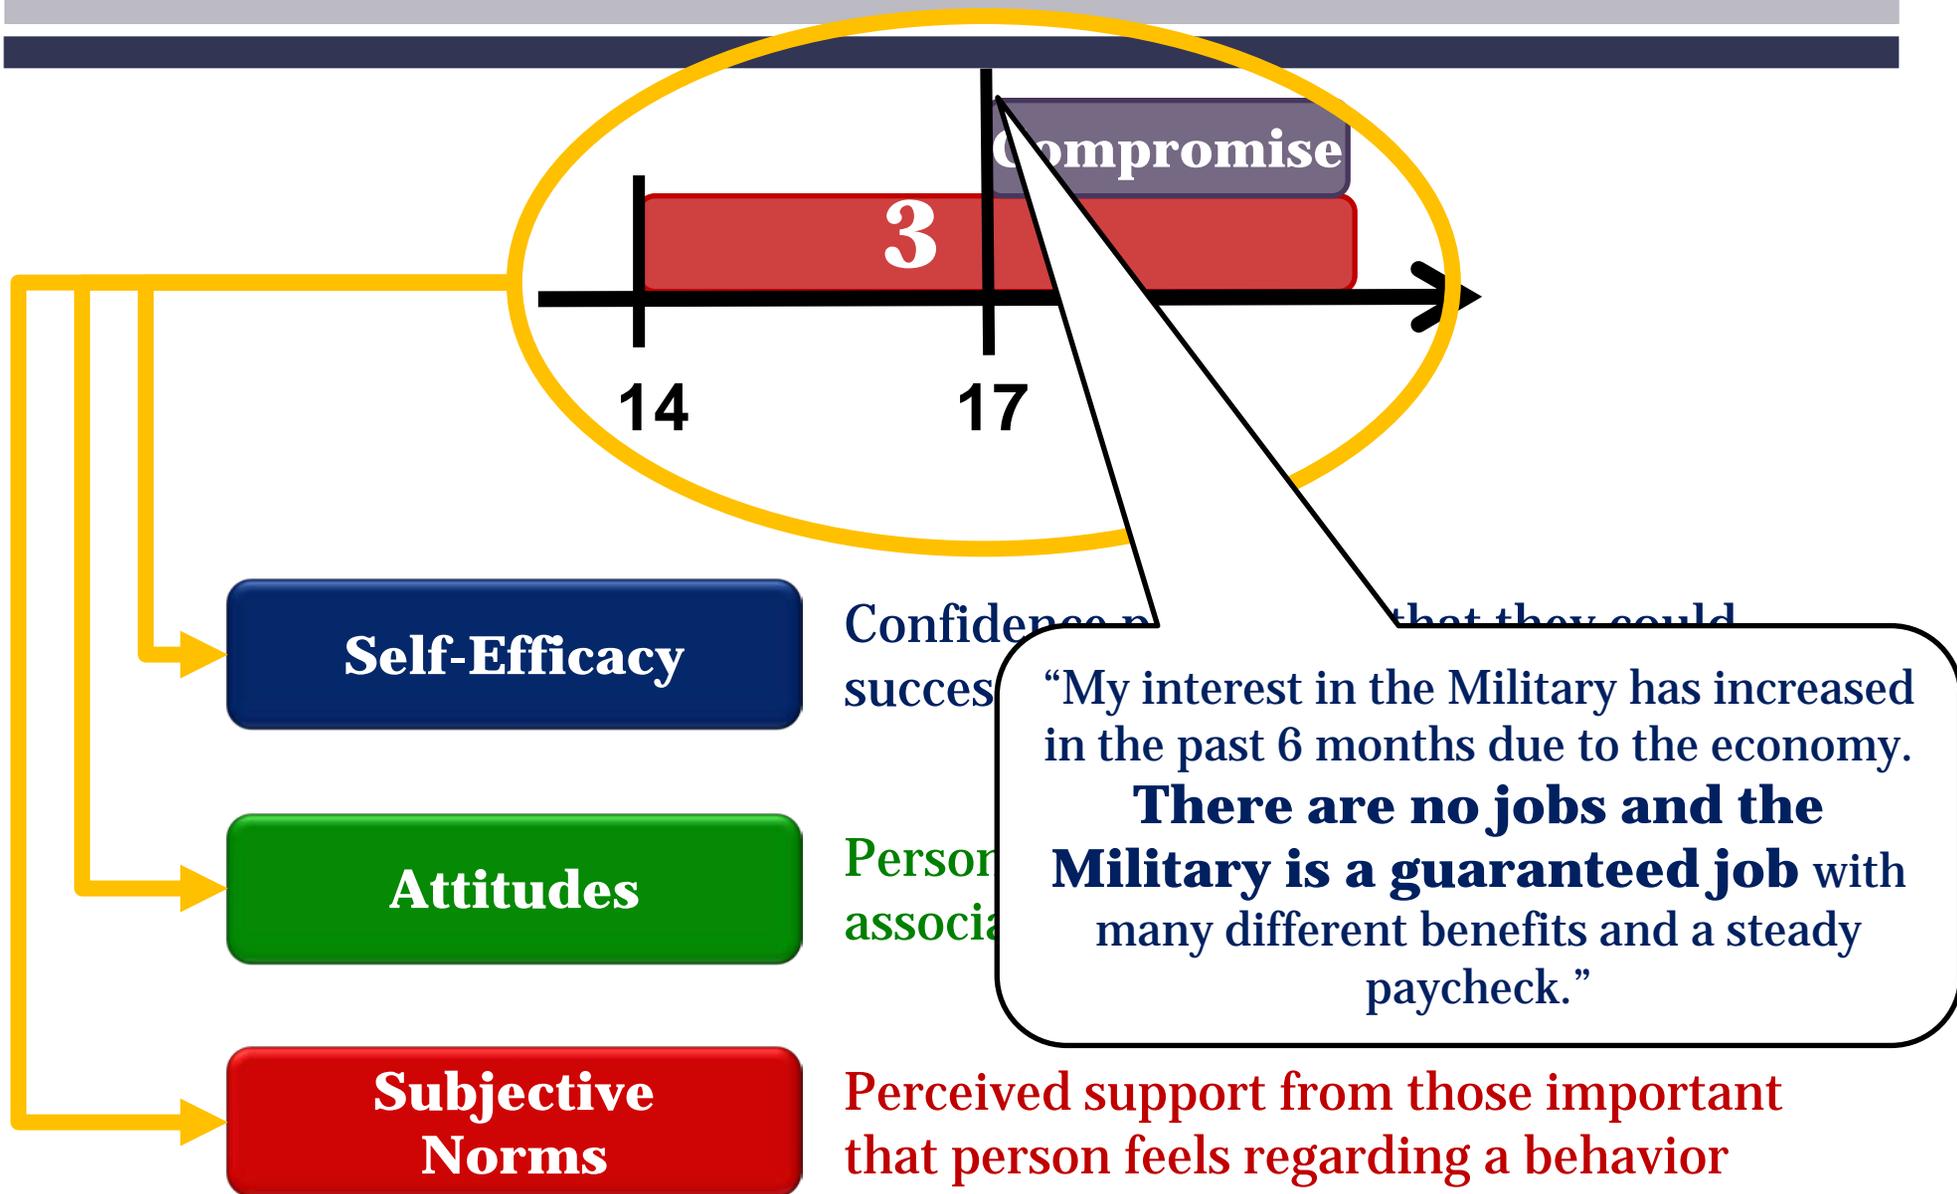

## **3: CONGRUENCE;** Ages 14+

- Teens rank and select from options remaining after stage 1 and 2

## **COMPROMISE;** Ages 17+

- Usually after high school
- Facing reality so balance preference with accessibility
- Perceptions of opportunity
- Barriers to jobs & training

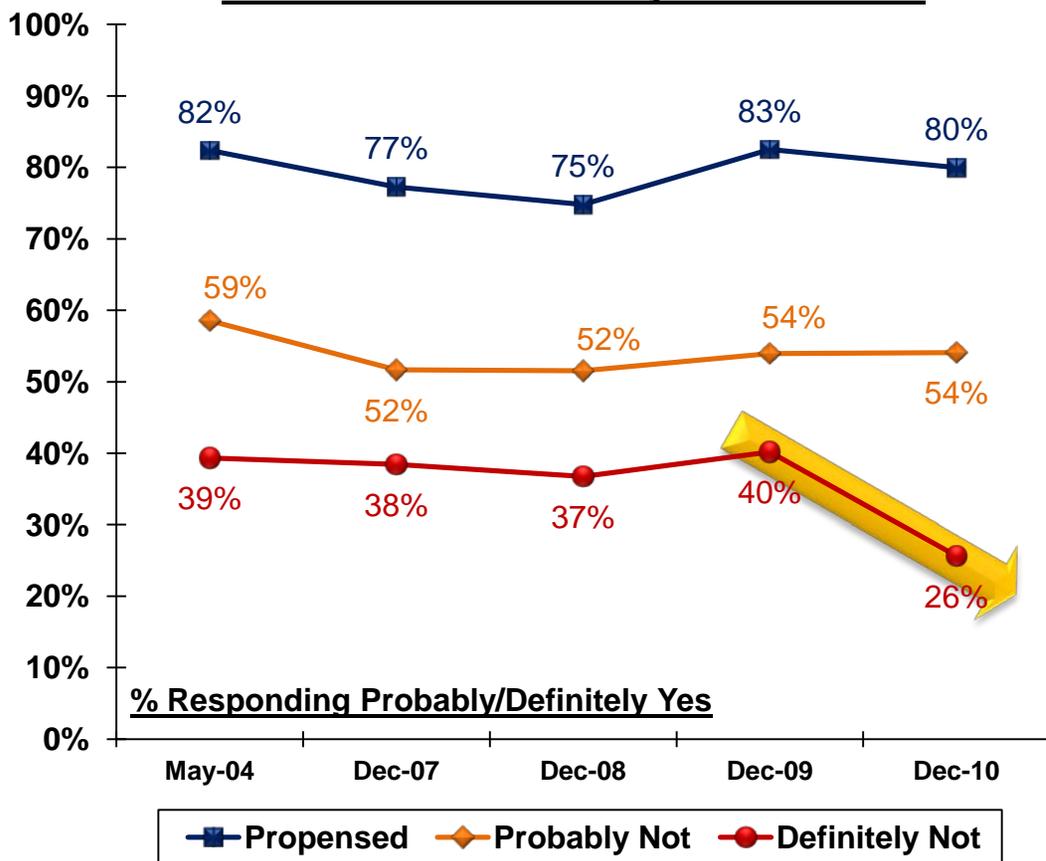

# Selection, Congruence and Compromise

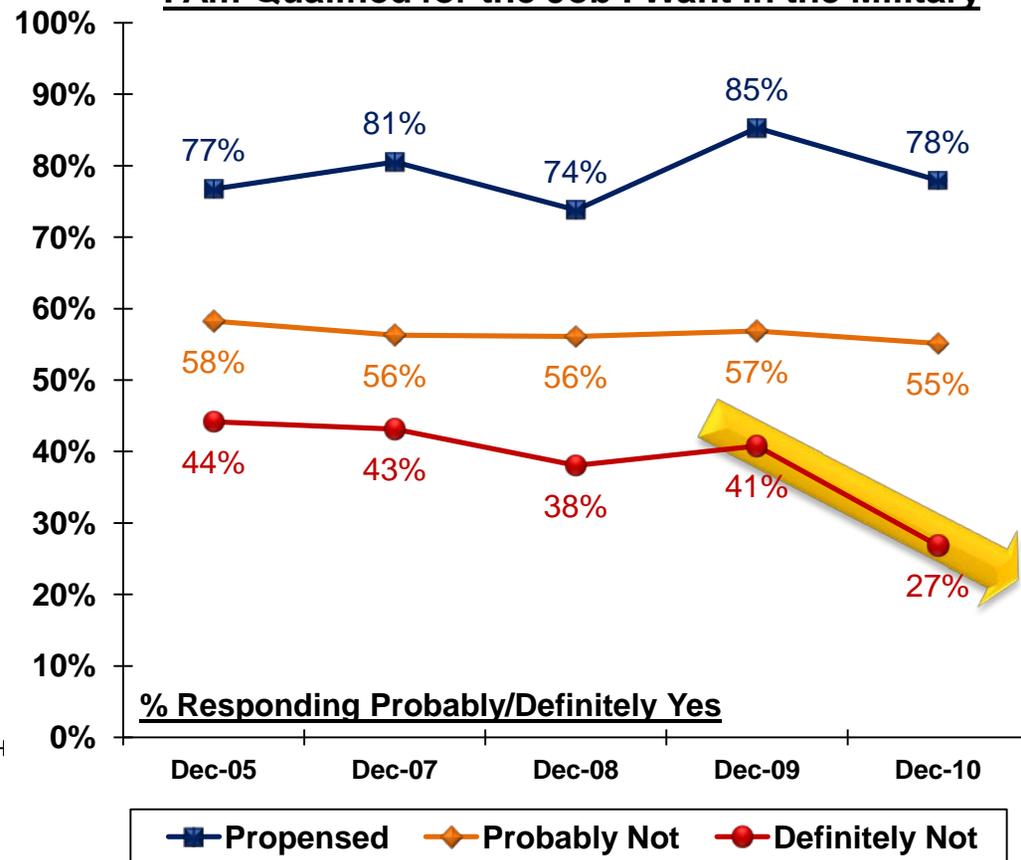

# Self-Efficacy Beliefs

- The declines among self-efficacy beliefs were **isolated within the “Definitely Not”** population.

**I Can Get into the Military Branch I Want**

**I Am Qualified for the Job I Want in the Military**

Note: Youth ages 16–21

Source: Department of Defense Youth Polls

Questions: SELF1F: Below is a list of activities. Please indicate how confident you are that you could do each one... Get into the military branch of your choice. SELF1G: Below is a list of activities. Please indicate how confident you are that you could do each one... Qualify for a desirable job within the Military. (1-Definitely no; 2-Probably no; 3-Maybe yes, maybe no; 4-Probably yes; 5-Definitely yes)

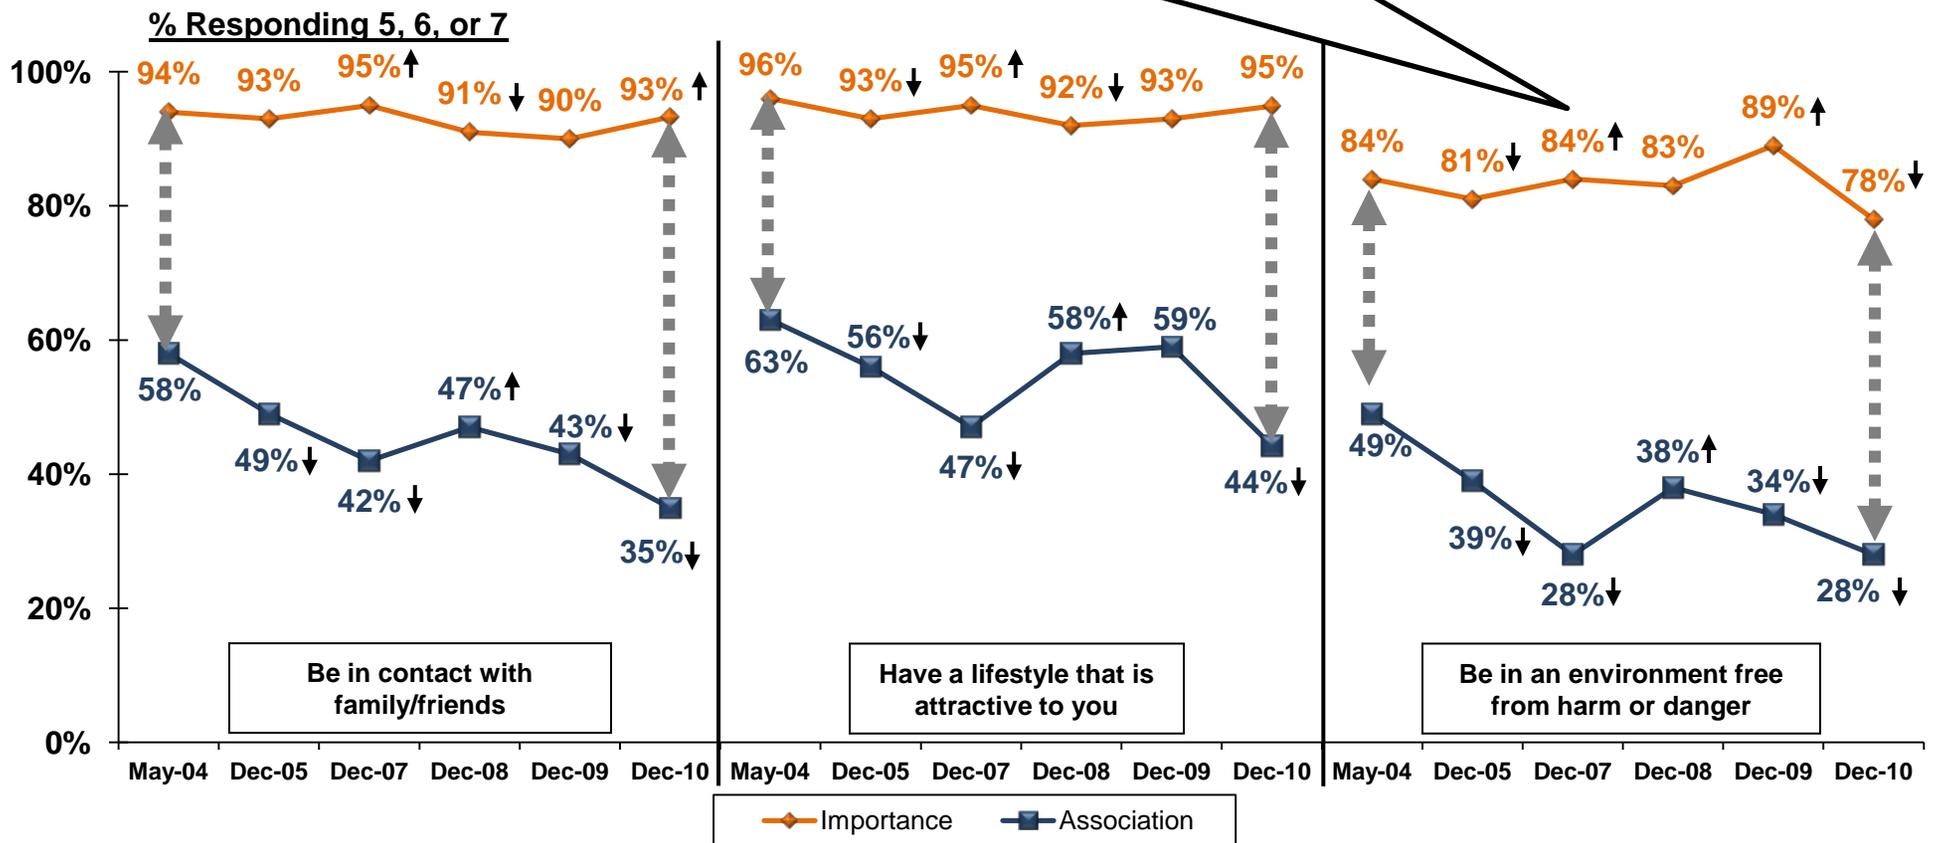

# Quality of Life and the Military

## Change Over Time in Importance and Association

- **Fewer youth** strongly associate the military with a high quality of life.
- Interestingly, fewer youth

“More people are job-less. And employment in the United States is decreasing everyday. The Military offers more benefits. **But you will also be risking your life.**”

...ery, which remains

Note: Youth ages 16-21

<sup>1</sup> Simmons Spring 2011 NCS Teen Survey.

# Conclusions

# Take-Aways

## **1. Pre-Prospect Market**

We must get in front of the coming recruiting challenges and start laying the foundation for future recruiting missions. This means we must begin leading the recruiting process, proactively working to educate and create a connection with the prospect market of tomorrow, today.

## **2. Prospect Market**

We must be willing to be more innovative in our messages to prospects. Adrenaline, technology, and patriotism are perfect messages for propensed. We must augment these messages with communication aimed at those not currently interested in the Military. These youth are more likely to be the individuals with the skill sets and aptitudes we require most.

## **3. National Market**

Our image as a premier employer for young adults is fading. Our connection with society is disappearing. This is not an Active, Reserve, or Guard problem. It is a Military and Government problem and if left unattended could have broad-based negative consequences.

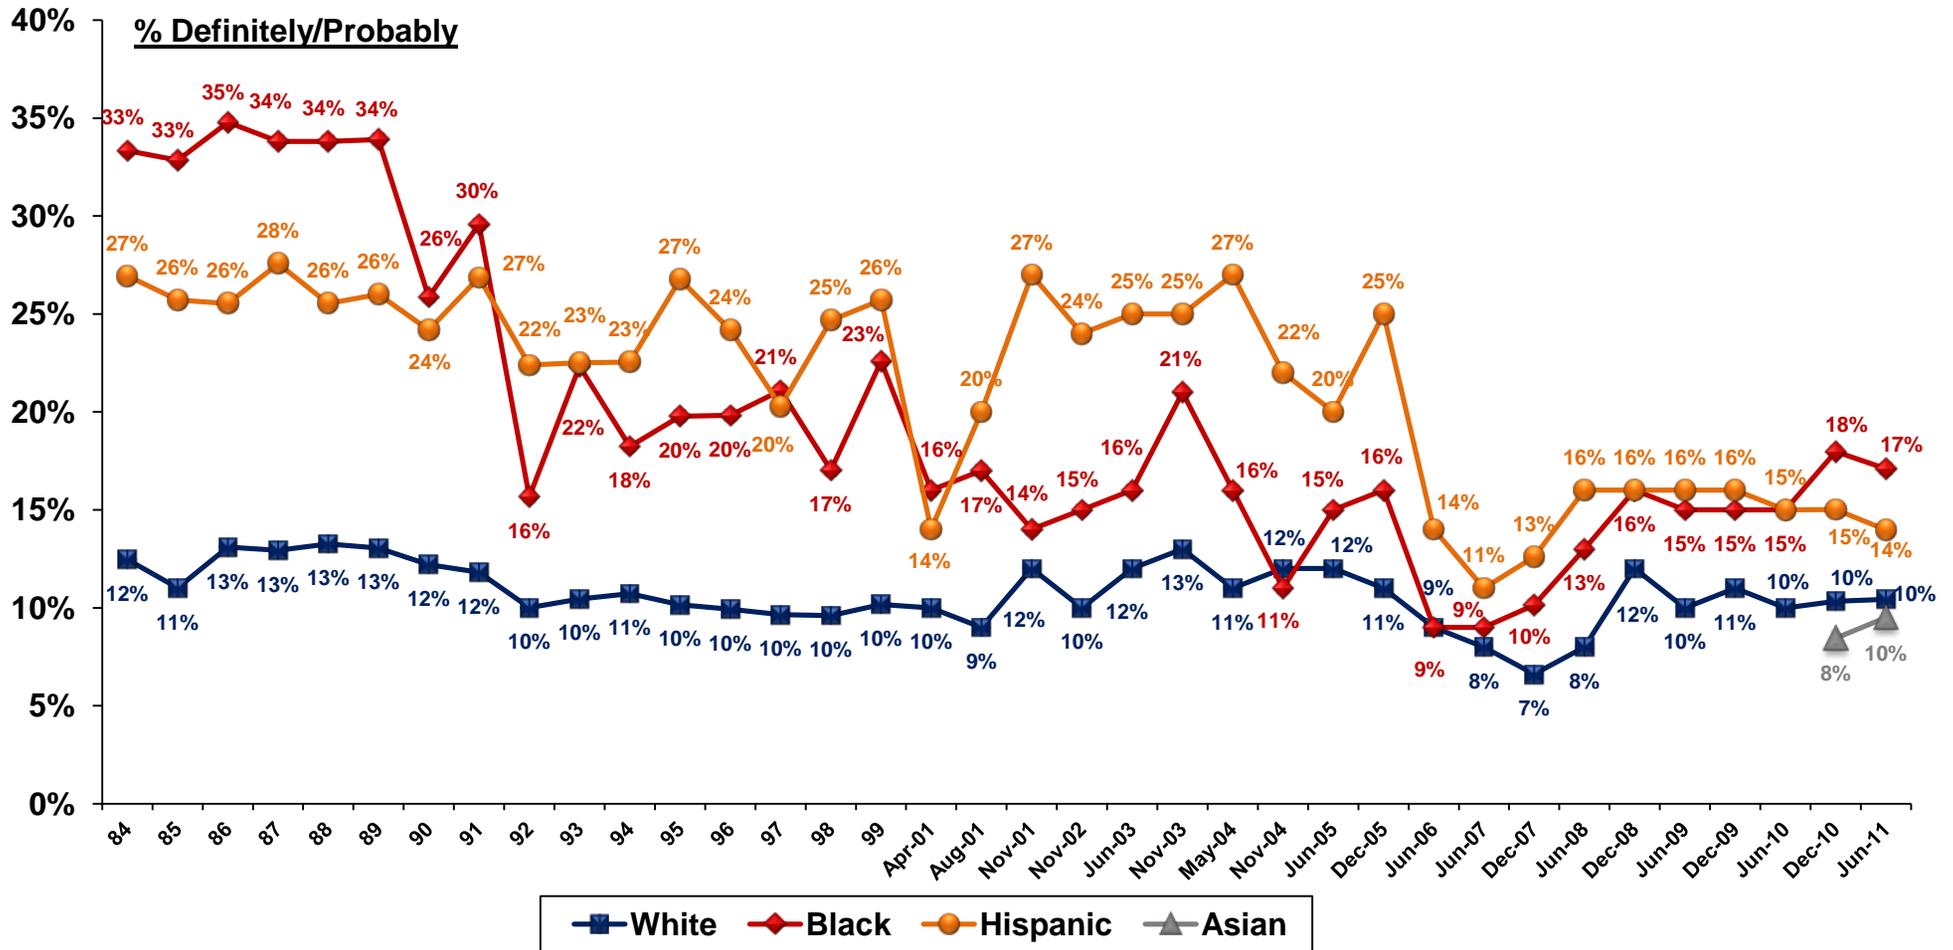

# Backup

# General Military Propensity

## By Race/Ethnicity

- Propensity among White youth continues to hover around 10%.
- Black and Hispanic youth propensity have **decreased by almost 50% since 1984**, but both have remained relatively stable over the past three years.

Note: Youth age 16-21

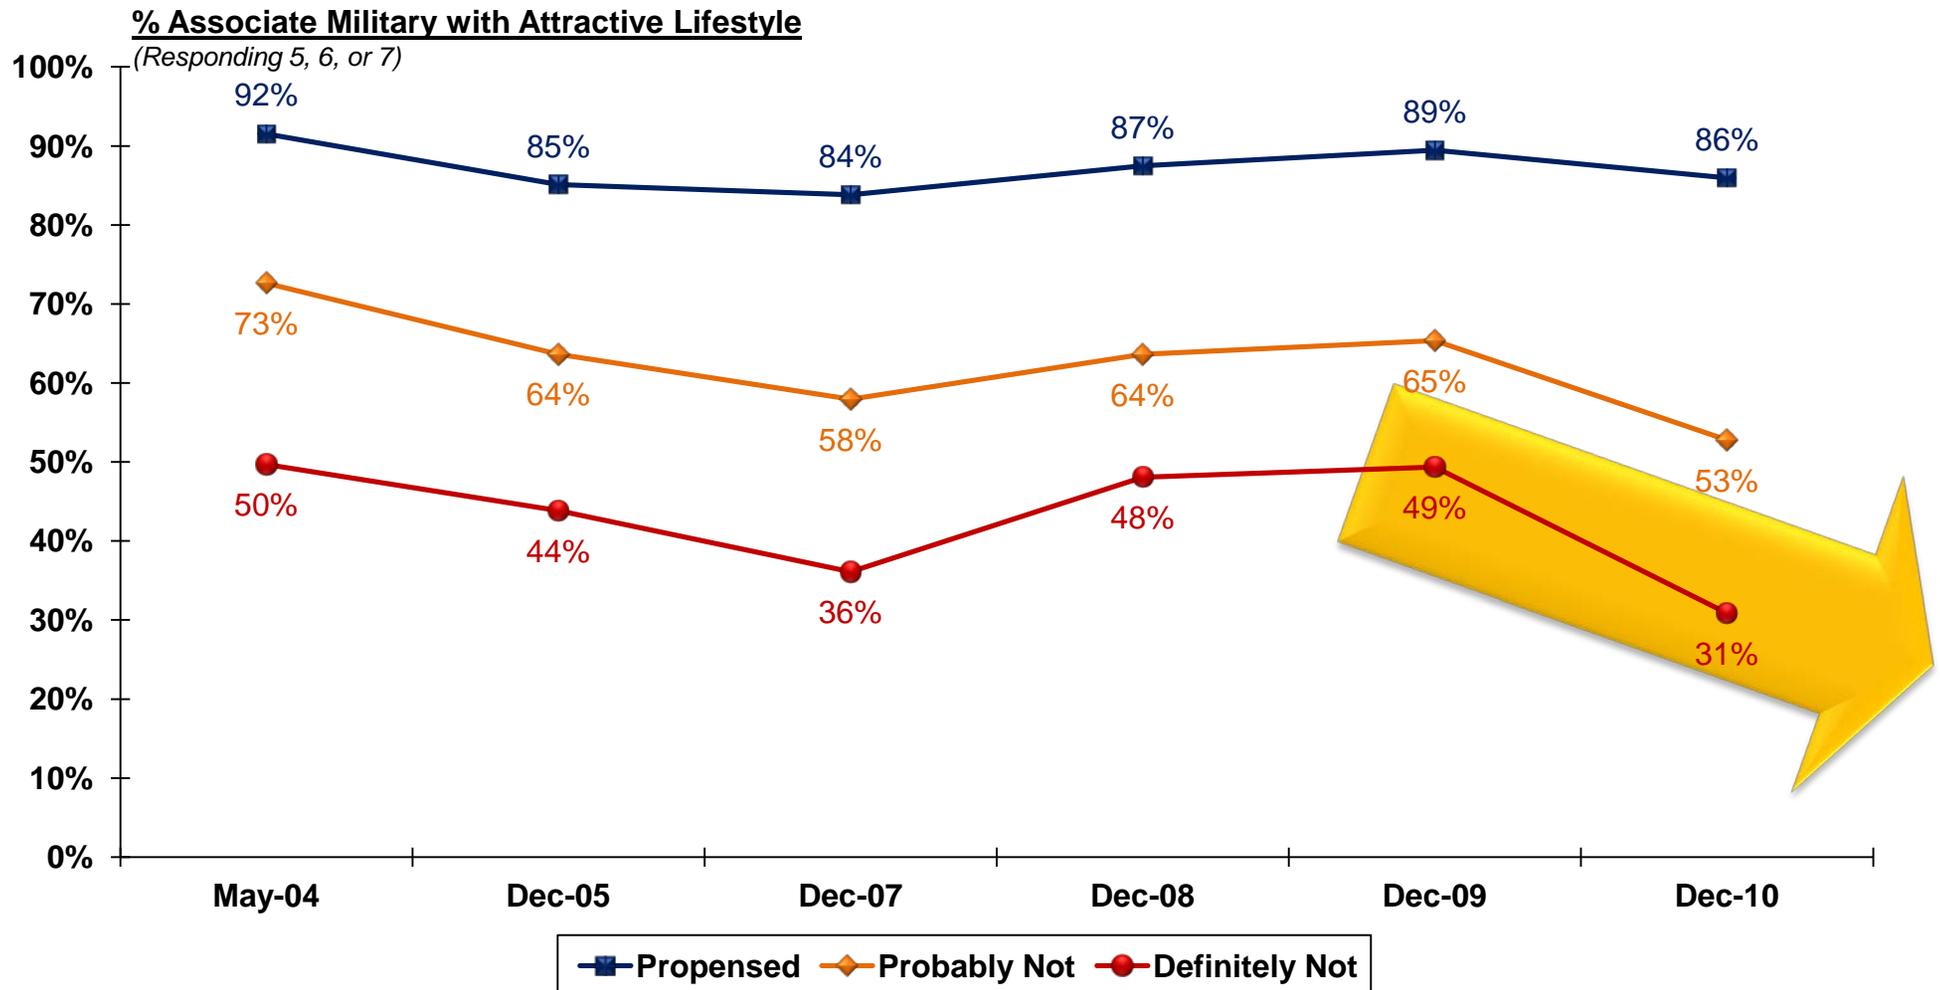

Source: Department of Defense Youth Polls

\* Youth Poll 20 marks the first Youth Poll with a sufficiently large sample size to report estimates for Asian youth.

# Stage 3: Attractive Lifestyle and the “Definitely Nots”

- The non-propensed market has **become significantly less likely** to associate the Military with an **attractive lifestyle**.

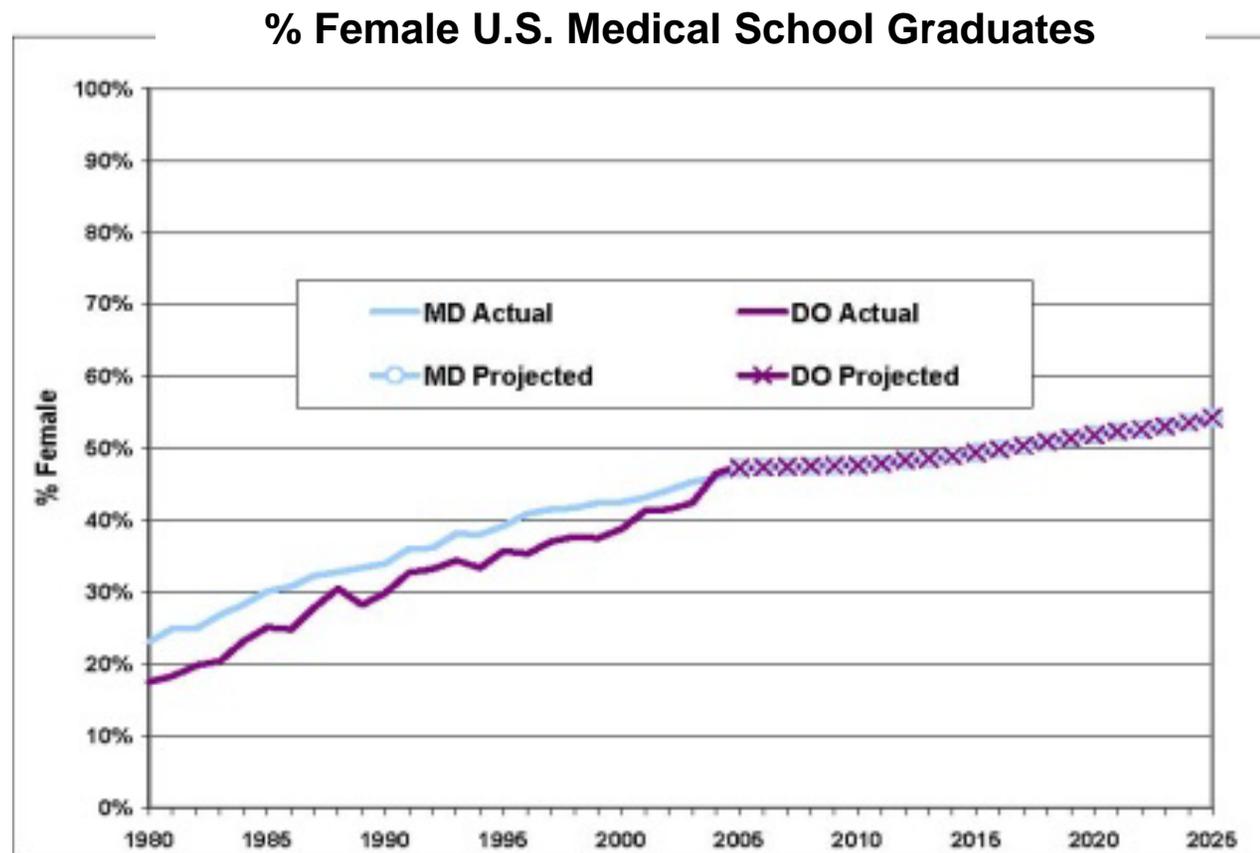

Note: Youth ages 16–21

Source: Department of Defense Youth Polls

JAMRS

# Female Physician Population Projection

- Female physicians are expected to pass the 50% mark of medical school graduates around 2015 and to continue to grow, eventually surpassing male physicians as the majority.
- This changing demographics of the physician market from the projected growth will likely have implications for physician recruitment for the Military; however, the primary barriers to joining—quality of life and disruption to lifestyle—will still remain.
