- **Successful performance on deployments/IA/Mobilization**

What the Board Considers

- Proven, sustained superior performance in difficult and challenging in-service or joint leadership positions is the number one factor for consideration.
  - Brilliant on the Basics
  - Documented mentoring
  - Increasing scope of responsibility

- Competency and Skill

- Collateral Duties and Special Qualifications

- Education and Professional Development

- Special Programs
What the Board Considers

- Adverse matter that is poorly explained or buried in the write-up

- Promotion recommendation and write-up contradict

- Decline in promotion recommendation or trait marks without explanation in write-up.

- Creative comments that do not describe potential for advancement; “fluff” without substance

- Eval concentrates too much on technical aspects; Do’er vice leader
Board Process Overview

- Board is sworn in and convened
- Members receive board process in-briefs and training
- Members read convening order and precept
- Recorders randomly assign records within panels
- Members conduct two independent reviews of each record
- Place candidates in order by score (highest to lowest)
- Establish the “crunch zone”
- Deliberate those within the “crunch” for selection
Board Process Overview

- Competitive group brief to President

- Brief a sampling of selects and non-selects within each competitive group to board members in the tank for voting. If not approved, the competitive group goes back to the panel for a second deliberation, President’s brief, and tank voting.

- The tanking procedure is the final stage of the selection board process

- Conduct brief on confidentiality and adjourn board

- Board President’s call-out with Deputy CNP
Post Board Process

- Conduct post board adverse review for security clearance and misconduct issues for recommended selects

- Results approved and public release authorized via BOL/NAVADMIN

- Those placed on hold are notified of their selection by their command, who then provides requested information to CNP who will decide whether to release the hold or permanently remove the selection. Holds may take six weeks to one year to resolve.

- Profile sheets are generated reflecting the results of the board
Special Boards

**Special Selection Boards**
- For eligibles who were not properly considered due to circumstances beyond their control
- Normally held in conjunction with regular boards
- Deputy CNP adjudicates requests within nine months after the regular board convened. BCNR approval is required for later requests.
- If selected, date of rate is computed from original board with appropriate back pay

**Member shares equal responsibility with their parent command in ensuring their name appears on the eligibility list prior to the regular board convening**
Common Issues

- Sailors not knowing how to verify their board eligibility.
  - Board profile sheet is the official source
  - No profile sheet = not being considered by the board

- Command leadership without BOL access when results are published

- Post-board scrub
  - Security clearance issues, NJPs, DFC, pending investigations
  - Results in candidates on hold and missing sequence numbers on NAVADMIN

- Adverse event occurs, command documents locally, but fails to report that info to PERS/OMPF. Result: Candidate gets advanced.

- Lack of understanding on record maintenance and communication with boards
1. A member of the board who knows you increases your chances for advancement.  **FALSE**

2. The selection board only considered items in my OMPF, PSR, and items in my Letter to the Board (LTB).  **TRUE**

3. Should a career summary be included with my LTB? By policy, only items missing from the candidate’s OMPF field codes 30-38 and PSR should be included in their LTB. Any additional information that candidate’s deem important may be submitted.

4. The selection board accepts items from both me and my command up to the convening of the board.  **FALSE** (only from candidate and if received prior to the LTB deadline)

5. Advancement board eligibility is posted on BOL.  **FALSE** (Results are posted on BOL, but eligibility is reflected on profile sheet on NKO)

6. Advancement board eligibility profile sheets are available for CPO, SCPO, and MCPO candidates.  **TRUE**
FAQs/Myths

7. CPO candidates are automatically board eligible if on an IA in theater. **FALSE.** Must be validated as board eligible by their command. NAVADMIN 336/07 paragraphs 3 and 8 refer.

8. I am mobilized which makes me eligible regardless of my HYT. **FALSE**

9. Only adverse information contained in my OMPF can be considered by the board. **TRUE**, unless submitted in the candidate’s LTB.

10. CMCs/SELs maintaining their BOL for advancement results is important. **TRUE.** Without BOL access, advance notification to the command triad is unavailable and “holds” cannot be readily identified.

11. How is PRIMS used in the selection board process? It is not used during the board process or in the post-board process

12. How is NSIPS ESR data used in the selection board process? Only if contained in the OMPF or in the candidate’s LTB.

14. A change in rating must be effective how long before the advancement board convenes to be considered in the new competitive group? One month.

15. When must your letter to the board be received by NPC's customer service center to be considered by the board? By the “received by” date published in the cycle NAVADMIN.

16. Which reference should you refer to for amplifying policy guidance for each selection board? The cycle NAVADMIN.

17. Once you verify that you have a board eligible profile sheet, is there any reason either before or during the board to re-verify your profile sheet that you are still board eligible? Yes. You may receive a BUPERS INVAL profile sheet without notification if you lose board eligibility.
18. Is it still necessary to submit an LTB even if my OMPF and PSR are up to date? It is recommended that candidates submit information they deem important, but doesn’t appear in their OMPF and PSR. It is unnecessary to submit an LTB stating that your record is up to date.

19. How far back in the record does the board consider? The entire record may be considered.

20. When and where can I read the current fiscal year Active-Duty and Reserve Senior Enlisted Advancement Selection Board precept and convening order? The precept is made public after CNP signs it and is posted on NPC selection board website. The convening order is made public after the board convenes, and contains board membership and quotas.

21. Why are items that reflect in my NSIPS ESR not reflecting in my OMPF? Your ESR requires close-out either upon reenlistment or separation by your servicing personnel office for items to be submitted to your OMPF.
FAQs/Myths

22. What is the number one factor for selection and where would you find it written? Proven and sustained superior performance in difficult and challenging in-service or joint leadership positions as stated in the Senior Enlisted Advancement Board precept.

23. The precept refers to enlisted career paths. These are updated prior to each FY's enlisted boards. Where can I view my rating's career path? Enlisted Community Manager’s webpage on NPC’s website.

24. A PO1 who is selection board eligible fails the Spring 2014 PFA. Their command’s PFA cycle is 23 APR - 25 MAY. How is this information made available to the board? After the member signed the PFA failure Page 13, that Page 13 must be electronically submitted by the servicing personnel office to PERS-313 and it must be accepted into the candidate’s OMPF prior to the board convening.
25. A Chief eligible for SCPO gets a DUI and receives NJP and is awarded punishment while the SCPO board is in session. How is this information made available to the board? It cannot be made available to a board in session. However, the CO does have the option to withdraw the Chief’s recommendation for advancement per article 721 of the Advancement Manual. Ensure mandatory reporting of E6-E9 misconduct is reported to PERS-832 immediately per MPM 1616-040. If the recommendation is not withdrawn and if the Chief is selected for advancement, the NJP may be identified via the post-board scrub.

26. On the NAVADMIN announcing the board’s results, what does the sequence number indicate? It ranks the candidates selected for advancement by seniority within each competitive group.

27. What if a sequence number or numbers are missing on the NAVADMIN that announces the board’s results? Either selects were placed on hold or quotas were unfilled.
28. I (CO) awarded a SCPO NJP four months ago, I did not pull his recommendation for advancement and I did not do a special eval documenting the NJP because I intend to report the NJP in his next periodic eval. However, the MCPO board results were just released and he was selected for MCPO. What should my command have done to ensure the board was aware of the recent NJP? Via “OMPF - Command View” on BOL, selected command leadership or authorized users should have verified the SCPO’s OMPF prior to the board to ensure the NJP documents reflected in the SCPO’s OMPF. Ensure mandatory reporting of E6-E9 misconduct is reported to PERS-832 immediately per MPM 1616-040.
