INTRODUCTION
Use this guide to discover what telework capabilities exist across the Navy for military and civilian personnel. Be sure to understand the impact level of information you need to store and relay to determine which capability is appropriate (see bottom).

Impact Level (IL) Definition: Impact Levels are the combination of: 1. the sensitivity of the information to be stored and/or processed in the cloud; and 2. the potential impact of an event that results in the loss of confidentiality, integrity or availability of that information.

IL6
- Accomodates DoD Classified Information up to SECRET

IL5
- Accommodates DoD Controlled Unclassified Information (CUI) (e.g. FOUO)

IL4
- Accommodates DoD CUI & National Security Systems (NSS)

IL2
- Accommodates DoD information that has been approved for public release (Low Confidentiality & Moderate Integrity)

UNDERSTANDING DoD IMPACT LEVELS

Impact Level (IL) Definition: Impact Levels are the combination of: 1. the sensitivity of the information to be stored and/or processed in the cloud; and 2. the potential impact of an event that results in the loss of confidentiality, integrity or availability of that information.

IL6
- Accomodates DoD Classified Information up to SECRET

IL5
- Accommodates DoD Controlled Unclassified Information (CUI) (e.g. FOUO)

IL4
- Accommodates DoD CUI & National Security Systems (NSS)

IL2
- Accommodates DoD information that has been approved for public release (Low Confidentiality & Moderate Integrity)
